

Kusudama Origami Flower Instructions

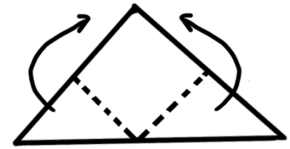

1. Use a square piece of paper.

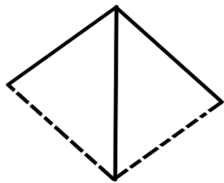

2. Fold the paper over into a triangle.

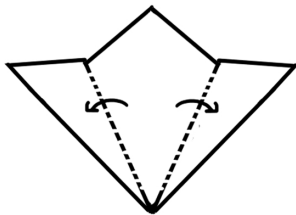

3. The flower (paper) color should be on the outside.

4. Fold each side of the triangle into the middle. This will form a square.

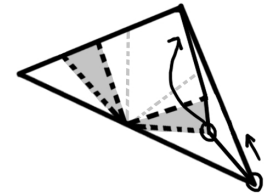

5. The folded paper should look like this.

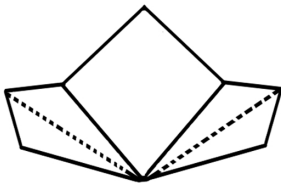

6. Take the right corner from the top of the diamond and fold it toward the outside edge. (dotted line in step 5).

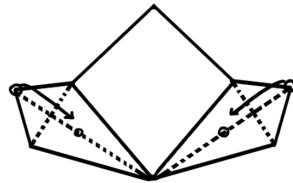

7. Unfold the paper. It should become a triangle once again.

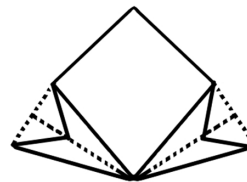

8. Open up the right side of the paper. Fold the middle triangle on each side inwards (the gray area should touch the white area with the dotted, gray outline), and then fold down so it makes a kite-shape (see step 9). Repeat with the left side.

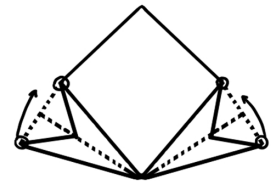

9. The folded paper should look like this.

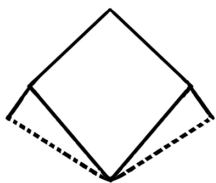

10. Fold down the triangles on the right and left side.

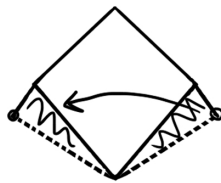

11. The folded paper should look like this.

12. Fold the paper along the dotted line.

13. The folded paper should look like this.

14. Glue on the area where the squiggly line is.

15. Hold sides together until glue is dried. It should look like a flower petal. Make 5 of petals and glue them together.
